# TERMS & POLICIES

## AVAILABILITY

---

All products are available from our German warehouse with an average delivery time of 2 - 5 weeks, depending on the final destination in relation to the distance from our warehouse in northern Germany, local forwarding services, local tax authorities etc.

## CUT & SEW CUSHION PROGRAMME

---

Cushions are made via our in-house Cut & Sew supplier. When the order for cushions is received, a purchase order is created and the cushions are produced at our supplier. The order is then passed over to our warehouse for packing and onward shipping to its final destination. We aim for a total lead time of 20 working days from receipt of initial order to shipment of the finished cushions.

## RECOMMENDED RETAIL PRICES

---

All recommended retail prices shown are per single item unless indicated otherwise. All prices include VAT. The new recommended retail prices are valid from 1st January 2025.

Due to the current volatility in exchange rates, please note that we reserve the right to change the prices in-season.

## CARRIAGE / DELIVERY CHARGES

---

For DAP delivery, all orders from £ 2,000 excl. VAT will be delivered freight free to a UK mainland commercial address.

For deliveries to all other territories and island locations outside of the UK mainland, as well as private and residential addresses, the freight will be calculated on a case-by-case basis in consultation with Gloster Logistics and noted under terms of delivery.

## RETURNS POLICY

---

Written authorisation must be obtained from Gloster prior to returning any products. Products returned without prior written authorisation will be refused.

Defective products returned are inspected by our Quality Control Manager and replaced or repaired if the damage is a result of a manufacturer's defect. If it is determined not to be a manufacturer's defect, the customer, along with the Quality Control Manager will decide what further action to take.

For non-defective products returned as an unwanted order, a 15% handling fee will be applied and the customer is liable for all shipping charges involved in returning the items back to Gloster. Returned goods will only be accepted if returned in their original packaging, thereby suitable for re-sale.

## ASSEMBLY / CONDITIONS OF SALE

---

Most Tables, Chairs & Loungers require assembly.

All prices are subject to our standard Conditions of Tender and Sale, a copy of which will be forwarded to you on request. All orders are accepted subject to being charged at the prices ruling at the date of dispatch.

## AREAS OF USAGE

---

Certain products are exclusively recommended for use in the residential sector. Please contact your Sales Manager who can advise if a requested product is suitable for contract use. For use in public areas, in which the furniture is exposed to particularly high stress, such as public educational institutions, fast food restaurants or meeting places, special requirements and standards apply. Please always ask about the suitability of the respective Gloster products for these areas before placing an order with our company.

## DISCLAIMER

---

Although the information in this price list is presented in good faith and believed to be correct at the time of printing, Gloster makes no representations or warranties as to the completeness or accuracy of the information. Gloster accepts no liability for any errors or omissions. Gloster reserves the right to change specifications and descriptions in the light of technical developments and the availability of materials. We try to edit our photos to show our product finishes and fabrics as life-like as possible, but colours reproduced in print will never be 100% representative of actual colour. We cannot guarantee that the colour you see in our literature or on-line, accurately portrays the true colour of the product in real-life lighting conditions.

# BETTER DESIGN THROUGH CRAFTSMANSHIP & INNOVATION

With a series of uniquely styled products, Gloster offers the opportunity to mix and match with an extensive range of diverse product collections.

From modular seating through dining tables & chairs, lounge and deco items, our collections combine sophisticated fabrics, textured powder coat finishes and of course our signature finish, plantation teak.

# AMBIENT MESH

Light and shadow make the shapes come alive. Ambient Mesh by Henrik Pedersen hints to rustic origins. Here, the latticework of woven shades in a variety of sizes and colours, paints a subtle pattern in the dark - breaking up straight lines and creating a whole new set of outdoor decorations.

# BAY

Can you recall that sense of escape? Of finally leaning back, forgetting your worries and staring out across the water towards the setting sun? Henrik Pedersen set out to capture the feel of sitting by the coast when designing the Bay collection. The reclined position emphasises an introspective and relaxed state of mind and is intended to create a sense of being at rest in a safe-haven.

NOTES

Visible cracks on exposed end grain of timber components is normal. The end grain is the part of the timber where the growth rings are exposed. Although we aim to keep the presence of end grain to a minimum to reduce the risk of splits and cracks, it is sometimes inherent in the design of our product. In our Block items, we make a feature of the end grain. As the timber is exposed to changes in temperature and humidity, small cracks will open in the end grain. This will not affect the strength, performance or life expectancy of the product. In fully exposed positions, the cracks will appear quite quickly, and will be deeper. In covered locations, the cracks will be less visible.

## BLOW

Bring sophisticated glazes in subtle hues to your life outdoors. The soft lines and natural tones of these beautifully rounded ceramic bases combine perfectly with plantation teak table tops. Eye-catching and inspiring, these accent pieces beautifully reflect light across their soft, round surfaces and compliment any item in the Gloster range while adding character to any outdoor space.

# CARVER

In the same way that an artist carves in stone or wood to create a unique form, the cross-rail and legs of the Carver tables have been subtly sculpted, like pieces hewn from a solid block. These iconic tables are topped with either stylish, slatted teak or practical solid ceramic tops.

# DECK

Broad, substantial, trusty and true, a ship's deck is literally the foundation of any voyage of discovery. Perfectly engineered to bear the weight of endless possibility and endure whatever tribulations may be encountered along the way, generous slats of resilient teak have been used for centuries to craft this impromptu footing for weary travellers, bold adventurers and pleasure seekers alike.

## FERN

Inspired by the delicate fronds of a unfurling fern leaf, the Fern collection by Sebastian Herkner has a design language that harks back to nature. Combining plantation teak with a soft finish outdoor rope, the enveloping, woven back rest both protects and provides the comfort and is attached to a typically Scandinavian style teak frame, which mirrors its contours and underlines the comfort aspects.

# FRESCO

Designed by Matteo Thun, Fresco picks up on the spirit of the 1960's - the timelessness, the ease and the elegance of terraces in Rome, Aspen, the Riviera and Malibu at that time. The light, almost floating seat element on the slim, powder-coated aluminum frame resembles a shell and results in an organic and ergonomic shape.

# GRID

When functionality is key and simplicity is a priority, Grid's elementary format is the perfect solution for deeply comfortable seating in a stylish world. Conceived as a bridge between stark minimalist design and large scale luxury, a few simple units form the basis of a totally flexible seating system combining individual elements to meet specific needs.

## GRID CABANA

Sunset to dusk to the rich blue of night; dream hours away sheltered in your own private cocoon far from the madding crowd. Use it as you will; with stylish striped fabrics, luxuriously deep outdoor cushions, oversize pillows and a handy integral shelf for personal effects, Grid Cabana is unquestionably the ultimate outdoor personal space.

# HAVEN

Designed with a nod to the nautical, Haven combines solid teak frames with deep and luxurious seat cushions and back pillows. The subtle, rounded back and side panels are designed to envelop and enclose the occupant, creating a warm and welcoming environment in which to relax.

GLAZE COLOURS

TEAK FINISH

NOTES

Due to unavoidable variations in the firing of ceramic base tables, the final colour of the glaze may be different from the control sample included with our swatch samples.

## KAY

With a dramatically curved back, Kay makes no secret of the defining factors in the design. Combining weatherproof and durable materials with a timeless teak frame, Kay is both comfortable and welcoming. The backrest is unquestionably the defining statement of the range, deliberately oversized and beautifully curved for comfort, Kay embraces you as you sit offering comfort and shelter.

# LIMA

The essence of natural and tactile materials are brought together into one, defined element in the new Lima modular seating collection by Henrik Pedersen. With practicality always in mind, the flexibility of modular elements ensures configuration of your hideaway however you like. Sociable seating set, more intimate chaise-longue or sofa - with Lima the only limitation is your imagination.

# MAYA

Maya takes classic modular furniture concepts and refines them to reflect the sophistication of the new Gloster design philosophy. The ultra-slender powder coated aluminium frame profile connects to cast aluminium legs with arm and back cushions upholstered in Sunbrella outdoor fabrics.

EDGE PROFILES

SAP WOOD EDGE

CONTOUR CUT EDGE

NOTES

RAW Sapwood Edge tables retain the natural edge of the board. During the life cycle of the tree, the sapwood will often be attacked by wood boring insects. The kiln drying process rids the timber of any insects. The small holes in the face of the sap, and burrows on the surface of the sap are all part of the natural character of the timber.

From time to time, the checks and splits that are a natural feature of the RAW planks are required to be re-enforced to prevent them extending too far into the wood. For this purpose, we have designed a brass, X shape, butterfly insert that stabilises the split in a fashion befitting of the teak raw material to which it is combined. As a result, RAW tables may or may not have these X shape, brass butterflies inserted.

BRAID COLOURS

# SALINA

Proudly, artfully echoing its island namesake. Salina's rustic and rugged materials are hewn, reduced and fused, refined to a point where simplicity of form infers reassuringly classic style. Then an integrated comfort delivers a contrasting opulence and promise of something truly, excitingly unique.

# SARANAC

When designing Saranac, Mark Gabbertas imagined a design that combined exceptional comfort with an enduring aesthetic. A design approach which seduced rather than shouted, that one would feel at ease with immediately, and which could continue to charm for years.

# FABRICS CUSHIONS

When choosing exactly the right outdoor furniture for your particular needs, function is just as important as style. In the following pages we have listed details of the various fabrics and cushions we use for our furniture to help you plan your selections in detail. Further technical information, including downloads and care & maintenance instructions are available on our website [www.gloster.com](http://www.gloster.com)

# PROTECTIVE COVERS

Gloster protective covers are made from Weathermax, a heavy duty 100% solution dyed polyester material. Weathermax is a performance cover material combining UV resistance, water resistance, breathability and durability. The ability of the fabric to breathe is essential in reducing dampness, heat build-up and condensation. This in turn reduces the chances of problems such as mould or mildew becoming present on the furniture underneath.

With typical attention to detail, each cover is tailored to the unique dimensions of our product, ensuring a perfect fit. As well as covers for individual items, we also offer covers for all our stacking chairs, meaning that a single cover can be used for a stack of four chairs. For our modular furniture collections, adjacent covers are designed to zip and Velcro together so the entire set can be covered without the need to separate each item. All covers feature either a strap-and-clip connector or ties to ensure security against wind.

# PRODUCT CARE & MAINTENANCE

## TEAK & UPHOLSTERY CLEANER

VOLUME - 1,000 ml

Thoroughly cleans & brightens teak or upholstery fabrics in one step. Also use to restore & revive weathered teak.

ITEM NUMBER  
100973 : Teak & Upholstery Cleaner

£ 90

## TEAK & UPHOLSTERY PROTECTOR

VOLUME - 1,000 ml

Repels water & moisture and helps to prevent stains from food and drinks on teak or upholstery fabrics. Also for use on weathered teak to help retain the silver grey patina.

ITEM NUMBER  
100781 : Teak & Upholstery Protector

£ 90

## TEAK SEALER

VOLUME - 1,000 ml

Helps to retain the natural, brown colour of teak.

ITEM NUMBER  
101678 : Teak Sealer

£ 90

## PRODUCT CARE BOX SET

VOLUME - 3 x 1,000 ml

Box set containing 1x 1,000 ml bottle of Teak Sealer, 1x 1,000 ml bottle of Teak & Upholstery Cleaner & 1x 1,000 ml bottle of Teak & Upholstery Protector.

ITEM NUMBER  
104777 : Product Care Box Set

£ 250

# FABRICS

Gloster works with only the best materials, which means that all of our upholstery fabrics are made predominantly from Sunbrella solution dyed acrylic yarns. Sunbrella yarns are produced using a solution dyed process, where the colour is added to the liquid solution that the yarn is extruded from. This means that the colour is 'solid' and runs all the way through the yarn. Only solution dyeing can make a fabric that is resistant to fading with exposure to UV rays from the sun.

# GLOSTER FABRICS

No matter which type of fabric you choose for your furniture cushions, you can rest assured that Gloster only uses the best Sunbrella outdoor fabrics for maximum resistance to the fading and degrading effects of sunlight. All Gloster fabrics are finished with a water-repellent coating on the

surface to reduce water absorbency. If the fabric does become wet from prolonged exposure, they will come to no harm, and the fabrics will dry out naturally. Gloster furniture cushions are offered with fabrics that fall into three distinct groups:

## OUTDOOR PERFORMANCE

Offered in a wide selection of stylish and sophisticated fabrics with a soft hand, our Outdoor Performance cushions use the softest, most luxurious fillings that give

the feel of the most comfortable indoor furniture. A highly water-resistant barrier beneath the outer fabric cover protects the fillings, keeping drying times to a minimum.

### MAXIMUM WATER RESISTANCE

For maximum water resistance, a selection of Sunbrella® Rain cover fabrics features a water-resistant coating that is applied to the back face, helping prevent water travelling beyond the surface of the fabric. Although not offering quite the same soft hand as our other fabrics, these water-resistant fabrics are very practical and quick drying. The fillings inside the cushion are engineered using open cell materials to allow for maximum air circulation, helping to speed up the drying process even further.

### MAXIMUM SOFT TOUCH

Combining with all the benefits present in Outdoor Performance cushions, Gloster offers this range of exclusive knitted performance fabrics that are the first to be used outdoors. These knitted fabrics offer the ultimate in terms of softness, giving a sumptuous cosy feel, while the inherent stretch allows for the perfect fit to even the most demanding of cushion shapes. The Wave fabrics feature a unique, 3D knitted structure giving levels of texture and softness unparalleled in outdoor fabrics.

# FABRICS SPECIAL FEATURES

## RAIN FABRICS

Sunbrella Rain is a water resistant version of the standard Sunbrella upholstery fabrics. Rain fabrics are treated with a weatherproof coating that minimises water absorption and enables the cushion to dry out much faster than standard fabrics. Rain fabrics can be completely moisture-free within minutes after a simple wipe-down. When wet, the fabric threads expand slightly, meaning any water simply beads up on the fabric surface, rather than seeping into the cushion filling and leaving behind residual moisture. Rain fabrics are a little stiffer than the traditional Sunbrella fabrics, but they share the same market-leading performance in terms of durability, fade resistance, and ease of cleaning - making them the ideal choice for all outdoor living and dining spaces.

## UKFR (FIRE RESISTANT) FABRICS

In addition to our standard grades of fabrics, we also offer eleven specific fabrics in fire resistant versions. The fire resistant versions of Sailing Seagull, Cameron Granite, Fife Rainy Grey, Fife Canvas Grey, Fife Granite, Fife Nickel, Fife Vesterhav Sand, Blend Linen, Blend Latte, Blend Coal and Loom 3 Castlerock have an additional back coating applied to ensure they meet the stringent UKFR (Fire Resistant) standard. These fabrics are not water resistant, so we recommend that furniture covers are always purchased when specifying these cushions.

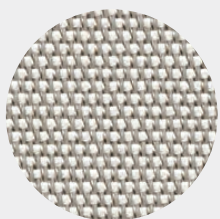

## RECYCLED CONTENT FABRICS

Fabrics shown on the following pages with the recycled icon contain Sunbrella recycled yarns that emulate a homespun look with a natural diversity of colour within the yarn. Due to the nature of the recycled content, these fabrics may exhibit random colour specks and shade variations. These slubs can sometimes be a contrasting colour. The recycled content used is collected from the Sunbrella manufacturing facility, where the waste is segmented into colour groups, reduced back to its fibre state and finally mixed with virgin fibre before making its way through the manufacturing process. Due to the recycled nature of this fabric, the colour may vary between production batches and large sections of recycled yarns may run sporadically throughout the fabric. The presence of these recycled yarns should not be interpreted as imperfection, but as part of the character of the recycled fabric.
